

Measurement Redefined Metrology Workshops

4th & 5th September 2023

Redefining Measurement since 1951

World Leaders in Multisensor Measurement Technology

Find out more - contact: sam.sadnicki@werth-metrology.com

We are running a series of workshops throughout the 4th and 5th of September.

In collaboration with the UCD we will be demonstrating our vast range of sensors and world class technology.

You will have the opportunity to talk to our experts, who will gladly discuss your metrology needs in more detail.

Plan ahead! Why not send us a part in advance and we can give you a live demonstration on your application.

Made In Germany, installed Worldwide

Dimensional Metrology using Computed Tomography

Find out more - contact: sam.sadnicki@werth-metrology.com

Utilising our TomoScope XS FOV, we are able to demonstrate our latest innovations harbouring the power of Computed Tomography.

We will also have presentations from experts from the UCD, detailing the advancements that they have been making in their research projects.

Werth and UCD have been technology partners since 2018 and plan to continue these events in 2024, where we are looking forward to welcoming you to the facility.

About MNMT - Dublin

Come and See Us During the Workshops

The Centre of Micro/Nano Manufacturing (MNMT-Dublin) is located in University College Dublin (UCD), School of Mechanical & Materials Engineering, which is considered as the largest of its kind in Ireland and a world player in both research and education.

MNMT-Dublin is funded by Science Foundation Ireland (SFI) Research Professorship Program with over €10 million research grant.

MNMT-Dublin is a world-leading research centre that focuses on cutting-edge research in optical and mechanical design, manufacturing and measurement, instruments and equipment. Applications include bio-implants, medical devices, aspheric & free-form optics and phonics.

World Class Education

University College Dublin
Belfield
Dublin 4
Ireland
D04 V1W8

UCD is situated on 330 acres of beautiful, green campus – one of the largest urban campuses in Europe.

Students live and study in modern, world-class buildings with access to sports facilities, leisure activities and wider engagement opportunities.

Ranked within the top 1% of higher education institutions world-wide, UCD has been a major contributor to the making of modern Ireland.

So Much Technology - all under one roof

World Leaders in Multisensor Measurement Technology

Werth Metrology is located in Pride Park, Derby and offers a vast range of multisensor technology.

We have a dedicated team with a wealth of experience, servicing a range of industries throughout the UK & Ireland.

We will also demonstrate our powerful software Winwerth, developed in-house and with a range of options to be fully automated.
